

**OSA TARIFF
OF ROYALTIES**

Reproduction and Distribution of Carriers 2025

VALID FROM 01/01/2025 UNTIL 31/12/2027

I. Music and film carriers

(Reproduction and distribution of musical works on audio and audiovisual recording carriers)

OSA makes it possible to obtain a license for reproduction and distribution of carriers (under Sections 13 and 14 CA) on the basis of a one-time or long-term agreement. A one-time agreement is suitable in particular for subjects releasing a small number of titles within a year (within the range of several units). A long-term agreement may be entered into by any subject who pays OSA an annual royalty of at least CZK 15,000 net of VAT in the case of music carriers (par. 1.1 hereof) and CZK 9,000 net of VAT in the case of film carriers (par. 1.2 hereof).

Where the royalties paid by the licensee under a long-term agreement within a calendar year do not reach the amount specified in par. 1.1.6 and 1.2.2, the licensee is obliged to pay the difference.

The royalty is always calculated as a percentage of **PPD (Published Price to Dealer)** – it is the book value for which the licensee provides the carrier to a third party. PPD is equal to the price of the carrier net of VAT as entered in the licensee's books for which the licensee provides the carrier to a third party (the so-called "release from storage"), in particular a distributor etc., and it will be shown separately for each price category for which the carrier is sold.

The first marketing means the first release of the carrier by releasing it from the licensee's storage under a unique catalogue number.

Where the total royalty charged under any distribution mode (Budget Reissue, Mid-Price Reissue etc.) is lower than CZK 178.07 net of VAT, OSA will issue an invoice in the amount of CZK 178.07 net of VAT for each such distribution mode (Budget Reissue, Mid-Price Reissue etc.).

1.1 Music carriers (audio and audiovisual)

1.1.1 **Music audio carriers** are carriers containing musical works without the visual component. **Music audiovisual carriers are carriers** containing an audiovisual recording of a concert, music festival, music video etc. (hereinafter referred to as music AV carriers).

1.1.2 The royalty amounts to **8.712% of PPD** for music audio carriers and **6.5% of PPD** for music AV carriers, see Table 1.

1.1.3 The percentage of OSA royalty corresponds to the length of pieces from the OSA Repertoire in relation to the total length of the carrier (the pro rata temporis principle). The royalty is reduced according to the share of the OSA Repertoire on each carrier.

1.1.4 The minimum royalty is fixed for each carrier type separately in accordance with Table 1; it may be further reduced in carrier distribution under one of the following distribution modes:

- „**Mid-Price Reissue**“ - carrier distribution against payment, if PPD is by at least 30% lower than the amount of PPD at the moment of the first marketing and, at the same time, at least 6 calendar months have expired since the date of the first marketing.
- „**Budget Reissue**“ - carrier distribution against payment, if PPD is by at least 50% lower than the amount of PPD at the moment of the first marketing and, at the same time, at least 12 calendar months have expired since the date of the first marketing.
- „**Sale**“ - carrier distribution against payment, if the production (reproduction) of the carrier has been discontinued and the carrier is visibly marked as "SALE".
- „**Multiple carrier distribution**“ - distribution of two or more different carriers against payment within a single indivisible whole (package)..
- „**Premium carriers**“ - carriers distributed to promote another product, service or person as special marketing products, without the right to sell them separately to end consumers (e.g. added to washing powder, cereals etc.). The amounts of royalties under this distribution mode are specified in Table 2. The carrier must be indelibly marked as not for individual sale.
- Individual royalty reductions under individual distribution modes cannot be combined.

1.1.5 One-time license agreement

- I. The license includes an authorization to use the OSA Repertoire in the production and distribution of carriers for the entire number of copies produced as agreed in the agreement. The royalty for granting the license is paid for the entire number of copies produced in the form of a one-time payment after conclusion of the license agreement.

1.1.6 Long-term license agreement

- I. The license includes an authorization to use the OSA Repertoire in the production and distribution of carriers; the royalty is paid for the number of copies released from publisher's storage for the period agreed in the agreement, usually for a calendar quarter.
- II. Where the licensee decides to terminate or not to renew the long-term agreement and has any carriers left in storage, it is obliged to settle the carrier production en bloc by a one-time license agreement.
- III. The long-term agreement may be entered into by any subject who pays OSA an annual royalty at least in the amount of CZK 15,000 net of VAT.

1.2 Film audiovisual recording (audiovisual video)

- I. Film audiovisual carriers are carriers containing a recording of any audiovisual work unless it is a musical audiovisual (AV) work under par. 1.1 hereof or the so-called multimedia under par. 1.3 hereof.

1.2.1 One-time license agreement

- I. The license includes an authorization to use the OSA Repertoire in the production and distribution of film audiovisual carriers for the entire number of copies produced as agreed in the agreement. The royalty for granting the license is paid for the entire number of copies produced in the form of a one-time payment after conclusion of the license agreement.
- II. The percentage of OSA royalty corresponds to the length of pieces from the OSA Repertoire in relation to the total length of the carrier (the pro rata temporis principle).
- III. The royalty is fixed at **5% of PPD**.
- IV. The minimum royalty is fixed according to the total length of the carrier in accordance with the following mechanism:

Total carrier length	Minimum royalty for 1
29 minutes	CZK 2.37
30–59 minutes	CZK 3.55
60 and more minutes	CZK 4.74

- V. Where the carrier is distributed in order to promote another product, service or person as a special marketing product, without the right to sell it separately to end consumers (e.g. added to washing powder, cereals etc.), the rates specified in the following Table 3 may be applied to the minimum royalty. The carrier has to be indelibly marked as not for individual sale.

- II. The royalty is fixed at **3.5% of PPD, without application of the pro rata temporis principle** (the royalty is not reduced according to the footage to the total carrier length ratio).
- III. The minimum royalty is fixed according to the total length of the carrier in accordance with the following mechanism:

Total carrier length	Minimum royalty for 1 carrier
0–29 minutes	CZK 0.58
30–59 minutes	CZK 1.18

- IV. Where the carrier is distributed in order to promote another product, service or person as a special marketing product, without the right to sell it separately to end consumers (e.g. added to washing powder, cereals etc.), the rates specified in Table 4 may be applied to the minimum royalty. The carrier has to be indelibly marked as not for individual sale.
- V. In the case of the so-called **reissue**, which means situations where:
- the film carrier is reissued after the expiry of at least 1 year from the original release (the original release means the release on any carrier), and
 - the price of the carrier (PPD) subject to reissue is by at least 50 % lower than the price under the original release, or
 - the carrier consists of a newly prepared compilation of works released earlier and the new carrier is sold for prices which are by at least 50 % lower than the price of the cheapest carrier under the original release,

- 1.3.4 Where the multimedia are distributed free of charge in order to promote (another) product, service or person as a special marketing product, without the right to sell them separately to end consumers (e.g. added to washing powder, cereals etc.), the royalty is reduced by 50 %. The carrier has to be indelibly marked as not for individual sale.
- 1.3.5 The royalty is fixed at the amount of:
- I. **CZK 0.465** for each commenced minute of music from the OSA Repertoire in the case of multimedia for sale,
